## About GWAva

For more than a decade GWAva remains unsurpassed at protecting electronic messaging infrastructures, and providing those systems with superior unified archiving. The Retain Unified Archiving solution by GWAva enables organizations to seamlessly archive all electronic business communication data, including email (Exchange, Office 365, Gmail and GroupWise), social media, instant messaging, and mobile communication – in one central location.

GWAva is headquartered in Montreal, Quebec with offices throughout the US, Germany, and the United Kingdom. GWAva maintains a network of global strategic partners with BlackBerry, Samsung, Microsoft, Micro Focus and Verizon. GWAva's key industry verticals include, Government, Education, Financial Services, Legal, and Healthcare. Information on GWAva can be found at [www.GWAva.com](http://www.GWAva.com)

### About Retain

GWAva markets Retain as a unified archiving suite primarily focused on email archiving for Microsoft Exchange, Office 365, Micro Focus GroupWise, and Gmail.

In addition to email archiving, Retain supports the archiving of electronic business communication including data created on mobile devices, social media, instant messages, and internet web searches, as well as built-in content filtering and URL Blocking. For mobile devices Retain archives communication data for Android, BlackBerry, and iOS, including SMS/text messages, BBM messages, BBM Protected, phone call logs, and PIN messages. It archives social media communication for Yammer, Facebook, Twitter, and LinkedIn. Instant message data for Lync/Skype for Business, AOL Instant Messenger (AIM), Yahoo Messenger, Google Chat, and Google Hangouts could be archived as well. Retain also captures and archives end-user web searches for search engines and web services including Google, Bing, Yahoo, YouTube, and Wikipedia. Retain also provides content filtering and URL blocking of social media, instant messages, and web search content.

Retain Insights is the underlying eDiscovery technology that allows Retain to search and take action on outside data sources, as well as conduct e-discovery activities across any connected dataset, and is receiving high marks from customers. Retain also includes an improved search engine, which provides search suggestions, keyword tagging, a boolean search wizard and Regex functions.

Retain is offered as an on-premise or cloud solution.

## EMEA Terms & Conditions

### Terms and Conditions

- Subscriptions include upgrades, 24x7 technical support and the use of the software in one year increments.
- Perpetual Licenses require active Maintenance to remain operational.

This price list supersedes previous versions. Quotations on prices valid for 30 days. The content for this document is for informational use only and may change without notice. GWAVA Inc and GWAVA Technologies Inc. assume no responsibility or liability for any errors or inaccuracies that may appear in this documentation.

## General Information

Retain provides multi-platform unified message archiving of all email, social media, instant messaging, web search and mobile communication data for case assessment, search, and eDiscovery, and can be deployed on-prem or in the cloud. The Retain archive is accessible by end users and administrators directly through Retain's Web Access Archive Viewer. This enables your organization to quickly access, search, and audit archived communication data. Easily place litigation holds, print, forward, save, redact, and export your message data. Retain reduces cost, mitigates risk, and manages complexity on-prem or in the cloud.

**Retain Server** is the core. It is licensed per mailbox. Each user counts as a mailbox. The Retain Server is where the messages are archived, indexed, searched, audited and placed on litigation hold. Customers have the option to purchase the server in a perpetual, or subscription model. The Retain server can run on a bare metal server, or on a Virtual Machine (VM) running Windows Server, or SUSE Linux. For backup purposes and flexibility, we recommend running it on a VM.

**Retain Email Modules** Retain provides multi-platform email message archiving for Microsoft Exchange, Office 365, Gmail and GroupWise. The email message data is archived in one central location, which can be accessed by end users and administrators directly through Retain's Web Access Archive Viewer. Sold separately per user, and through subscription model only. Purchase of a Retain Server is required.

**Retain Mobile Modules** Retain is the only enterprise-ready archiving solution for **iOS™**, **Android™**, and **BlackBerry®** mobile devices. Retain Mobile delivers secure, encrypted messaging and archiving for iOS, Android and BlackBerry mobile devices. Retain Mobile archives SMS/MMS, BBM Protected and phone call logs for Android, and BBM, BBM Protected, PIN, SMS/MMS and phone call logs for BlackBerry. Additionally, Retain archives all encrypted SMS/Text messages and dedicated business phone number data for iOS and Android, via the secure communications server, as well as BBM Protected. Sold separately per device, and through subscription model only. Purchase of a Retain Server is required.

**Retain Social Module** provides real-time monitoring and archiving of **Social Media** (*Facebook, Twitter, Yammer and LinkedIn*), **Instant Messaging** (*Lync, Skype for Business, Google Hangouts, Yahoo IM, and AOL Instant Messenger*) and **Web Search** data (*Google, Bing, Yahoo!, YouTube and Wikipedia searches*). If a policy violation occurs, the end user will be alerted via a pop-up window and the data entered will be placed in the central archive. This alert will automatically notify the network administrator that a violation has occurred. In addition, all archived data can be instantly searched, retrieved and reviewed from one central location enabling a complete picture in content of social media, mobile, IM, search and email communication.

At a minimum you need 1 Retain Social Suite (includes 1 Proxy + 5 Users). You can purchase additional suites and users. Clients for remote Windows and Mac users can be added separately. Retain Social is sold by subscription only. Purchase of a Retain Server is required.

**Reload for Retain** provides incremental backup of the Retain Server data. Unlike other backup solutions, where every file gets looked at every backup run, Reload for Retain's timestamp architecture eliminates that common backup method. Reload only looks at newly created archive files since the last backup. Never before have you been able to so quickly create backups of your Retain communication data. Sold separately per mailbox, through subscription model only.

# Units

- “User” when used herein shall mean one Entity or Unified Archive.
- “Entity” when used herein represent one User, one shared account, one resource, or one IoT.
- “Unified Archive” when used herein represent the unification of one user Archive into one MailBox.
- “Device” when used herein shall mean a portable computing device such as Personal Computer, Smartphone Tablet or IoT. If a User has many devices, it is considered the same Entity.
- “Proxy” when used herein shall mean a Gateway that acts as an intermediary for requests from clients seeking resources from other servers.
- “Email Account” when used herein shall mean electronic mail for one Entity. Alias to the Email Account are not considered an additional Email Account. Email distribution lists are not considered as Email Accounts.
- “IoT” (Internet of Things) All devices other than a Personal Computer, Smartphone or Tablet.
- “Client Access” when used herein shall mean 3rd party software that interacts with any Servers or Modules.

**Retain Server & Reload for Retain:** Licenses and/or Annual Subscriptions are sold by Mailboxes

1. [Mailbox Units](#) (One Mailbox can contain messages for one User. Also called Unified Mailbox)

- Email accounts for one User
- Mobile Devices for one User
- Social Accounts for one User
- Instant Message accounts for one User
- Web searches for one User

*Selecting which Mailbox to activate is discretionary to the Licensee. Mailboxes are activated for a minimum of one year.*

**Retain Modules:** Annual subscriptions are sold by Users, Devices or Proxy.

Active Modules need to have an Active Retain Server License or Subscription.

1. [Modules sold by Users](#)

- Email Modules
- Retain for Social
- Retain for BBM Protected suite

2. [Modules sold by Devices](#)

- Retain for Android, iOS or BlackBerry (BES)
- Retain for Social Clients are sold per Device.  
*(Each Windows or Mac based device that communicates to a Retain social Proxy, is a Device)*

3. [Modules sold by Proxy](#)

- Retain for Social Suite (Each Proxy comes with 5 Retain for Social Users)

# Retain Volume discount Policy

## Server Mailboxes

- Billable Mailboxes = Total Mailboxes – Unified Mailboxes
- Volume pricing is established using the Billable Mailbox amount
- Inactive Mailboxes uses the inactive Mailbox count to determine its volume discount

## High Performance Index Engine

- Volume pricing is established using the Billable Mailbox amount

## Email Module

- Volume pricing is established using the total Email Module user amount

## Mobile Module

- Volume pricing is established using the total Mobile Module Device amount

## Social Module

- Volume pricing is established using the total Social Module user amount

## Backup Solution Module

- Volume pricing is established using the Billable Mailbox amount

## CellTrust SecureLine

- Volume pricing is established using the CellTrust SecureLine Device amount

**Example:** A New customer with 1050 Employees

700 Exchange users + 350 Office365 users = 1050 Email users

100 Android Devices = 100 Mobile Devices

Server Total Mailboxes = 1150; Unified Mailboxes = 100; Billable Mailboxes = 1050

## Volume discounts

Server = Min 1000

Exchange Module = Min 1000

Office 365 Module = Min 1000

Android Module = Min 100

# Retain SMB – Pricing & Promotions

## Retain SMB Pricing - Your offer for price sensitive small business customers.

A lot of small business customers are price sensitive when it comes to IT projects. That is why GWAVA has launched a special Retain SMB pricing for companies with less than 100 active users. This document contains all information regarding pricing and licensing for Retain SMB.

### Conditions of the SMB Pricing:

- The Retain SMB Price List is applicable for customers using Microsoft Exchange, Microsoft Office 365 or Google Mail.
- Retain SMB is a pure email archiving offer and cannot be combined with other modules of Retain such as Social Media, Mobile or Mailbox Saver.
- For the initial archiving process every mailbox requires a Retain SMB Bundle. Since all mailboxes will be archived there are no inactive mailboxes for Retain. The number of Retain SMB Bundles can exceed the total quantity of 100 for the initial archiving, if the number of active mailboxes in Retain will drop below 100 after 90 days.
- For the renewal of Retain SMB the Retain server differentiates between active and inactive mailboxes. An inactive Retain mailbox did not archive any data in the last 90 days and remains static in the future.
- Only active mailboxes require a renewal - Retain SMB Bundle (Renewal).
- The number of Retain SMB Renewal Bundles may not exceed the number of Retain SMB New Bundles (purchased over time).
- The number of active mailboxes (sum of Retain SMB Bundles (New) and Retain SMB Bundles (Renewal)) needs to exceed the number of inactive mailboxes identified by the Retain Server.
- The number of active mailboxes may not be bigger than 100.
- If the number of active mailboxes exceeds 100 or if the customer wants to use other modules of Retain, an upgrade to the regular Retain Price List is required. Quotes will be created by GWAVA on demand.
- Retain SMB only includes basic support (Monday-Friday, 8:30 AM - 5:00 PM CEST, email Only). Support requests shall mainly be handled by GWAVA partners offering additional revenue possibilities.

## Retain SMB Pricing

Europe

50226SB	Retain SMB subscription Renewal for Exchange Bundle (50 to 100 Users)	Per User	€ 5.00

# Retain Mailbox Saver – Pricing & Promotions

## Retain Mailbox Saver - Your chance to win new customers.

Inactive mailboxes can be a huge burden for the IT department. On the one hand inactive licenses tend to be cost effective. On the other hand they have a negative impact on the performance of the mail server. This document contains all information regarding pricing and licensing for Retain Mailbox Saver.

### Licensing Conditions of the Mailbox Saver:

- Retain Mailbox Saver can only be used to archive inactive mailboxes (e.g. mailboxes of former employees).
- Mailboxes of current employees may not be archived with Retain Mailbox Saver.
- Retain Mailbox Saver is applicable for customers using Microsoft Exchange, Microsoft Office 365, Micro Focus GroupWise or Google Mail.
- Retain Mailbox Saver can only be used to archive inactive mailboxes and cannot be combined with other modules of Retain such as social media or mobile archiving.
- Retain Mailbox Saver cannot be combined with the regular Retain product or the Retain SMB Bundle.
- Retain Mailbox Saver is sold as a yearly subscription. Every mailbox within the Retain system requires a yearly subscription.
- The minimum number of users amounts to 10. Additional users can be licensed in 10 user steps. Mailboxes can be removed from the system if the data shall no longer be archived.
- If the customer wants to archive active users as well, an upgrade to the regular Retain Price List is required. Quotes will be created by GWAVA on demand.
- Retain Mailbox Saver only includes basic support (Monday-Friday, 8:30 AM - 5 PM CEST, Email Only). Support requests shall mainly be handled by GWAVA partners offering additional revenue possibilities.

# GWAVA Security Products

## GWAVA Security SMTP for All Email System

GWAVA SMTP for Email provides inbound & outbound protection for your company's enterprise network & messaging system, including anti-virus, anti-spam, cybercrime protection, DDOS protection, web content & traffic filtering, and optional GWAVA Image Analysis / porn blocking!

### Works with all Email systems including:

- Exchange
- Office 365
- Gmail
- GroupWise
- Notes
- Tobit David
- etc ...

## GWAVA Security for Micro Focus/Novell

GWAVA security protection for your company's enterprise network & messaging system, including anti-virus, anti-spam, cybercrime protection, DDOS protection, web content & traffic filtering

### GroupWise Email:

- GWAVA for GroupWise:Email security at the SMTP+ MTA + POA level
- WASP: GroupWise Web Access security
- GroupWise Mobility Service

### File sharing & Collaboration

- Vibe
- Filr

### GWAVA Image Analysis add-on:

- This add-on is essential to avoid explicit images to circulate by email.
- You will find GWAVA Image Analysis module in the Specialty Product section

## GWAVA Security Bundle for GroupWise

- The GWAVA Security Bundle for GroupWise combines the maintenance of GWAVA, WASP and GWAVA for GroupWise Mobility Service in one product. Customers save the maintenance of WASP when buying the bundle maintenance instead of the individual maintenance for each of the products.
- As of November 1st 2015 customers need to either own or purchase all licenses to benefit from the GWAVA Security Bundle for GroupWise.
- The Bundle is not available for SMB customers (<25 users)

## GWAVA for GroupWise License conversion to GWAVA for SMTP License

- Required if you want to upgrade to the SMTP License from the GWAVA for GroupWise

# Specialty products for MicroFocus/Novell GroupWise

## Specialty product Price List

The new Specialty product price list comes into effect on January 1st 2016. No price change into effect. Some codes might have changed.

- Reload
- Blueprint (Requires Reload)
- Reveal
- Vertigo
- Redline

## GWAVA Data Management Bundle for GroupWise

- The GWAVA Data Management Bundle for GroupWise combines the maintenance of Reload, Redline and Vertigo in one product. Customers save the maintenance of Vertigo when buying the bundle maintenance instead of the individual maintenance for each of the products.
- As of November 1st 2015 customers need to purchase all licenses of all three products to benefit from the GWAVA Data Management Bundle for GroupWise.
- The Bundle is not available for SMB customers (< 25users)

**Europe**

Effective: January 1st 2016

# GWAVA SMB Specialty products

## **Specialty product SMB Pricing - Your offer for price sensitive small business customers.**

The new Specialty product price list comes into effect on January 1st 2016. No price change into effect. Some codes might have changed. A lot of small business customers are price sensitive when it comes to IT projects. That is why GWAVA has launched a special SMB pricing for companies with 25 users or less. This document contains all information regarding pricing and licensing.

### **Conditions of the SMB Pricing:**

- The number of user may not exceed 25.
- SMB solutions only includes basic support (Monday-Friday, 8:30 AM - 5:00 PM CEST, email Only). Support requests shall mainly be handled by GWAVA partners offering additional revenue possibilities.

**Europe**

Effective: January 1st 2016

# Migration Tools

## GWAVA professional services team is here to assist you

- All are invoiced per Migrated Mailbox/User. Subscription provides usage & 24x7 technical support for one year increments. The Migration tools are only available with active Retain Maintenance or Subscription. Migration tools work for Migration from GroupWise to Exchange and GroupWise to Office365.
- (\*) Retain GroupWise to Exchange Tool is used to migrate data from GroupWise to Exchange or O365
- (\*\*) Personal Archiving to PST Tool is used to convert GroupWise Personal Archive to PST
- (\*\*\*) eDirectory to Active Directory tool is used to migrate users from eDirectory to Active Directory
- (\*\*\*\*)The Retain migration module is used to bulk restore information from Retain to Exchange or Office365. The use of this tool can only be performed by a GWAVA Certified Engineer and can only be used to migrate to Exchange or Office 365.
- Migrations services can only be provided by certified personnel, please contact GWAVA to be certified.
- If you have a Migration project and not certified, plan a GWAVA 4 hour Over the phone/remote Professional services with a Senior Engineer.
